

ENVIRONMENTAL POLICY

Environmental Policy Statement

Fern Building Surveyors Ltd is a Professional Building Surveying Company based in Kent. Fern Building Surveyors recognises its corporate responsibilities towards the environment, and the importance of environmental protection.

We recognise that our own business activities have direct and indirect environmental impacts. In an effort to minimise our impact on the environment we are committed to:

- Complying with all relevant environmental legislation, codes of practice, regulatory controls and pertinent guidance relevant to the industry.
- Using energy and natural resources efficiently and to reduce consumption wherever possible.
- Using recycled products wherever feasible in our daily activities.
- Minimising the generation of waste and recycle wherever possible.
- Ensuring employees are accountable to this policy through training and communication.
- Expecting similar environmental standards from our suppliers and sub-contractors.
- Promoting the use of the best and applicable local suppliers for any required equipment and consumables in order to reduce our carbon footprint.

All staff are responsible for safeguarding their working environment and the natural environment by following company procedures, standards and good practices, together with reporting any deficiencies to the management.

The management of Fern Building Surveyors Ltd are responsible for implementing this policy and making staff aware of the global importance of following the guidelines outlined above. Management are also responsible for updating and reviewing the policy at regular intervals.

J. Mahoney
